

Estimate ETT Size →

$$\sim(\text{age}/4) + 4$$

Max Scope Size →

$$\text{ETT} - 1$$

*exception 2.8 scope can fit in a 3.5 ETT, very tight

*if 3.0 ETT, need 2.2 scope (lacks suction channel)

Scope size	Working channel
2.2	---
2.8	1.2 mm
3.6	1.2 mm
4.0	2.0 mm
5.0	2.0 mm
