

Zoom Teaching Session Set-up Guide

<p>Overview</p>	<p>This document reviews key Zoom features you might want to use for a teaching sessions, and how to enable them. Zoom has many features and optional settings that are often not easy to find. Taking the time to familiarize yourself with the Zoom environment, features, and settings will enable you to maximize your virtual teaching experience, and your students virtual learning experience.</p> <p>Support resources:</p> <ul style="list-style-type: none"> Zoom Help Center Help.Desk@childrens.harvard.edu BCH Department of Education
<p>Contents</p>	<ol style="list-style-type: none"> 1. Plan 2. Choose your session type 3a. Session set-up: meeting 3b. Session set-up: webinar 4. Invite attendees 5. Rehearse 6. Conduct event 7. Evaluate
<p>Step 1: Plan</p>	<p>Your teaching objectives and parameters will determine the need for enabling or disabling certain Zoom features. Key considerations:</p> <ul style="list-style-type: none"> • Teaching methods <ul style="list-style-type: none"> ○ Lecture ○ Panel discussion ○ Large group discussion ○ Small group work ○ Role play ○ Q & A ○ Polling ○ Brainstorming ○ Games ○ Etc... • Audience <ul style="list-style-type: none"> ○ is the size conducive to group activities? ○ are there attendees external to bch? may imply requirements for access to content, registration, and credit • Session participants <ul style="list-style-type: none"> ○ host, co-host, presenters, moderator, technical support ○ level of technical facility/comfort • Post-session recording for on-demand access? <ul style="list-style-type: none"> ○ recording to the cloud requires permission, via form at: Web2/ > Quick Links > Zoom > Cloud Recording Request Form ○ how will people access the session recording link?

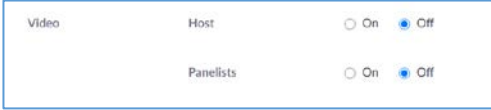

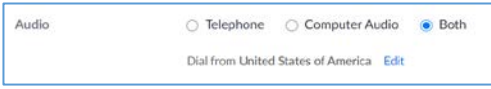

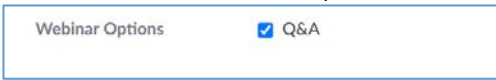

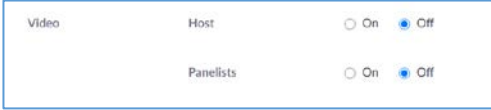

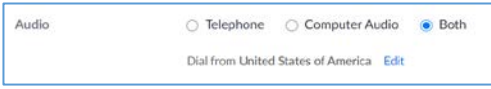

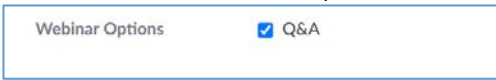

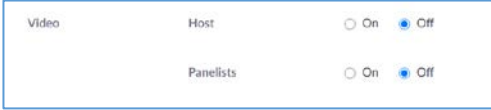

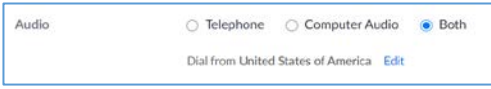

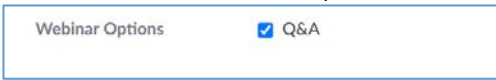

Zoom Teaching Session Set-up Guide

	<ul style="list-style-type: none"> • Security <ul style="list-style-type: none"> ○ No recording of PHI, display or discussion • Supporting media <ul style="list-style-type: none"> ○ slides, video, documents, etc. • Will credit be awarded? • Will attendance be tracked? 		
<p>Step 2: Choose your Session Type</p>	<p>Note: Webinar capability requires an add-on to the standard BCH Zoom account, which may be requested via helpdesk. See Comparison of meetings and webinars on Zoom support for more detail.</p> <table border="0" style="width: 100%;"> <tr> <td style="width: 50%; vertical-align: top;"> <p>Zoom Meeting For sessions with up to a hundred people, attendees can</p> <ul style="list-style-type: none"> • collaborate with each other spontaneously • be segmented into smaller working groups with breakout rooms • mute and unmute their own audio and video </td> <td style="width: 50%; vertical-align: top;"> <p>Zoom Webinar Webinars are intended for events with larger audiences and lecture-based presentations. A webinar is intentionally NOT a collaborative experience, so it has more options for limiting attendee interaction. For example, webinar attendees</p> <ul style="list-style-type: none"> • cannot unmute themselves, but hosts can unmute attendees • can chat only with hosts and panelists, or with all attendees, depending on set-up permissions • can submit questions to host and panelists • can answer poll questions <p>Note: webinars have two distinct links, one for host/panelists and one for attendees. Be sure to send the right invitation to the right role.</p> </td> </tr> </table>	<p>Zoom Meeting For sessions with up to a hundred people, attendees can</p> <ul style="list-style-type: none"> • collaborate with each other spontaneously • be segmented into smaller working groups with breakout rooms • mute and unmute their own audio and video 	<p>Zoom Webinar Webinars are intended for events with larger audiences and lecture-based presentations. Resend panelist invitation with webinar link.

At any time, you can resend the invitation to co-hosts and panelist. Select 'Edit' under the Invitation tab.

Send an email invitation to your attendees

After completing initial setup of the webinar, scroll down to the bottom of the setup page for the webinar and select the 'Invitations tab.' Select one of the email options to right of 'Invite Attendees'. Tip: send the email to yourself or a colleague first to make test.

If you want to change the title and add a banner to your registration page

After completing initial setup of the webinar, scroll down to the bottom of the setup page for the webinar and select the 'Branding' tab

If you want to add information about the webinar speakers

After completing initial setup of the webinar, scroll down to the bottom of the setup page for the webinar and select the 'Branding' tab

Zoom Teaching Session Set-up Guide

	<div style="border: 1px solid #ccc; padding: 10px; margin: 10px auto; width: 80%;"> <p>Speakers</p> <p>You can add information for up to 3 speakers in your webinar. Attendees see the speaker information in the email invitation and on the registration page.</p> <p style="text-align: center;">Add a speaker</p> </div>										
<p>Step 4. Invite Attendees</p>	<p>Meeting invitations are straight forward, particularly if sent as an outlook meeting.</p> <p>Webinar invitations have more to manage because they have two different links: one for webinar hosts, co-hosts, and panelists, and one for attendees. Be sure each participant type has the correct invitation with the correct link.</p> <p>Tip: use reminders when setting up a webinar invitation to automatically send reminder emails to panelist and registrants.</p>										
<p>Step 5. Rehearse</p>	<p>Rehearsing you Zoom session is important, particularly if your session will involve multiple speakers/panelist, or interaction among attendees with polling, breakout rooms, or other features.</p> <p>The goal of a rehearsal is not to practice content delivery. The goal is to choreograph the session, and make sure all session hosts, co-hosts, presenters, and panelists are comfortable with manipulating any Zoom features they will need to use. If possible, it is a good idea to test the entire process, from session setup through completion.</p>										
<p>Step 6. Conduct event</p>	<table border="0" style="width: 100%;"> <thead> <tr> <th style="text-align: left; width: 50%;">If you want to...</th> <th style="text-align: left; width: 50%;">Then...</th> </tr> </thead> <tbody> <tr> <td>Recognize individual attendees for questions</td> <td>Ask attendees to use the raise hand icon Meeting Webinar</td> </tr> <tr> <td>Take the pulse of your meeting participants, e.g., should you go faster/slower</td> <td>Meeting only: prompt attendees to use non-verbal feedback icons</td> </tr> <tr> <td>Take questions from attendees</td> <td>Webinar only: prompt attendees to use the Q & A tool (webinar only)</td> </tr> <tr> <td>Segment attendees into multiple smaller groups for discussion or group work</td> <td>Meeting only: use breakout rooms. Note: only hosts can control breakout rooms in a meeting.</td> </tr> </tbody> </table>	If you want to...	Then...	Recognize individual attendees for questions	Ask attendees to use the raise hand icon Meeting Webinar	Take the pulse of your meeting participants, e.g., should you go faster/slower	Meeting only: prompt attendees to use non-verbal feedback icons	Take questions from attendees	Webinar only: prompt attendees to use the Q & A tool (webinar only)	Segment attendees into multiple smaller groups for discussion or group work	Meeting only: use breakout rooms . Note: only hosts can control breakout rooms in a meeting.

Zoom Teaching Session Set-up Guide

**Step 7.
Evaluate**

If your Zoom meeting has registration or polling enabled, you can generate a registration or polling report for further analysis.

The registration report contains the following information of registered participants:

- First and last name
- Email address
- Date and time of registration
- Responses to custom questions
- Approval status

The polling report contains the following information of participants that answered a poll question:

- Username and email address
- Date and time they submitted their answer
- The poll question and the participant's answer
